TRANSPORTATION PUBLIC MEETINGS

Transportation Alternatives Set-Aside Program Recommended Projects

Staff will present the list of recommended projects for funding in the 12-county North Central Texas Council of Governments Metropolitan Planning Area. Projects eligible under this program include on- and off-road pedestrian and bicycle facilities, multimodal connections to public transportation, and pedestrian and bicycle infrastructure associated with Safe Routes to School projects that will substantially improve safety and the ability for students to walk and bicycle to school.

New Federal Transportation Funding

Staff will be presenting on a proposed process to select projects via funding programs for an overall amount of approximately \$345 million in federal funds. The projects will be categorized into approximately 11 programs based on similar goals. Project selection is proposed to occur in stages throughout 2017 and possibly into early 2018.

Mobility 2045: The Metropolitan Transportation Plan for North Central Texas Kick-off

One of the primary responsibilities of a Metropolitan Planning Organization is the development and maintenance of a metropolitan transportation plan (MTP). The last comprehensive update of the MTP occurred in 2016 with the adoption of Mobility 2040. Staff has initiated the development of a new MTP, Mobility 2045. This Plan will reassess existing recommendations and include new demographics, financial forecasts and planning initiatives. Staff is working with partners to develop draft recommendations and will present an overview and proposed timeline for the Plan.

Joining Forces: Aligning Community & Military Missions

NCTCOG is collaborating with military and community leaders for Joining Forces, a Regional Joint Land Use Study (JLUS) that will identify and recommend voluntary communications and land use strategies that support continued military capabilities. During a JLUS, the cities and counties surrounding the military installation work with the installation to plan and carry out specific actions that will promote compatible community and economic growth. Staff will present project activities conducted to date as well as remaining public involvement opportunities.

Other Information to be Highlighted at the Meetings:

- Auto Occupancy Detection Technology Pilot Program Recruitment
- 2017 Clean Air Action Day

The Arlington meeting will be live streamed at www.nctcog.org/video (click on the "live" tab). A video recording of this meeting will also be posted online at www.nctcog.org/input.
